DETAILED ACTION

Response to Amendment

Responsive to Amendment received October 13, 2005. Upon further review of the claims presented, it is determined that the claims are directed to two distinct inventions related as subcombinations usable together in a single combination.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9 and 11-15, drawn to a storage device, a computer network, and a method for providing a cached file to a requesting computer from a storage device localized to a computer, classified in class 709, subclass 213.
 - II. Claim 10, drawn to a method for providing updated files to a computer, classified in class 709, subclass 224.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as providing updated files to a computer by providing a list identifying a plurality of files which the storage device may retrieve and receiving at the storage device notice from the file server that an updated version of the first files exist on the file server, whereupon the cached copy of the first file is deleted. . See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
